SuperSixties Sporting and Technical Regulations 2026

Approved by KNAF under permit nr. 0326.26.075

Addendum to article:

8.6 Participation of two drivers (team) with one Car

For races over 90 minutes in duration it is permitted to enter a relay team, with two cars, under the following conditions:

- Both cars must be entered in the same class (i.e. GTS10, CT07 etc.). If a relay team consists of cars from two different classes, it will be put in the Invitation Class.
- In the race, both cars need to carry the same starting number with separate transponders as used in qualifying.
- Mandatory pitstop times are the same as those for regular competitors.
- Under no circumstance is it allowed to have both cars out on track during the race. This will lead to exclusion.
- It is allowed to run both cars in qualifying, with different start numbers and separate transponders. The car that will qualify for the grid position needs to be nominated in advance.
